

## CURATOR TOOLS WISH LIST (March 2010)

### Reports:

- New deposits that need to be curated
- All records lacking a value in any particular field (especially useful for package records lacking article DOI or other citation information)
- All records created on/between specific dates (submit date)
- All records edited on/between specific dates (?)
- All records with a particular value in dryad.status

### Other Features:

- Addition of a comments field that displays on simple record
- Dryad.status drop down menu and display of status on simple record
- Addition of field for related objects in other repositories and elsewhere on web (underway)
- Improved display of embargo information (ready)
